

pCon.planner web 1.0

Main Features

pCon.planner web 1.0 – Main Features

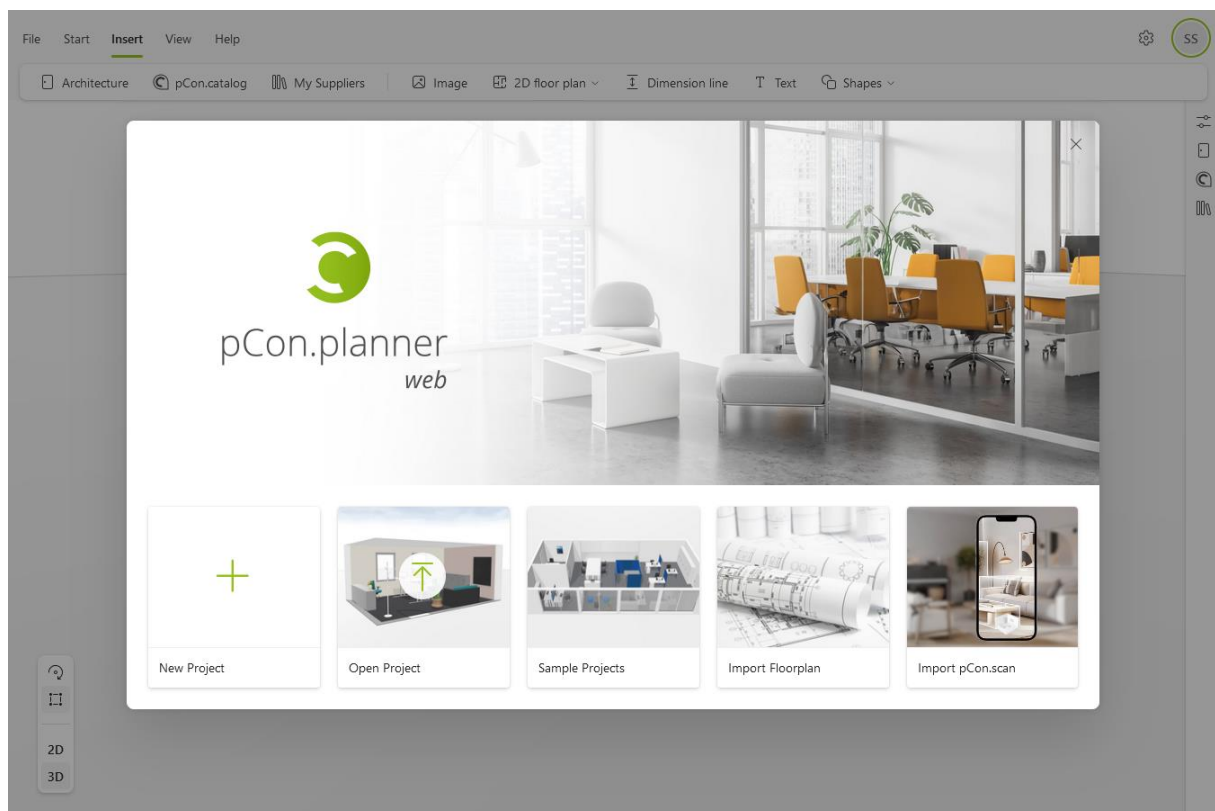

Content

1	User Interface.....	2
2	Integration of pCon.catalog 2.0	3
3	Migration from pCon.catalog data to configurable data with prices.....	4
4	Share with Impress.....	5

1 User Interface

The pCon.planner web can be used on any device that has a browser installed.

We have created a user interface that uses components of the Fluent 2 Web design system.

2 Integration of pCon.catalog 2.0

Users can easily insert furniture symbols and materials from pCon.catalog 2.0 into their drawings.

3 Migration from pCon.catalog data to configurable data with prices

It is possible to convert 3D models into articles with prices. pCon.planner web can also process drawings that were created with data from pCon.catalog 2.0. These data can then be used to create offers.

4 Share with Impress

With the new release you will be able to share your project with your customers via our presentation platform impress. Impress is your elegant way to send a 3D view of your project to your customers PC or mobile device. Customers can even use augmented reality files shared via impress on their mobile device.
