# pCon.planner web 1.2 – New Features

## Inhalt

1	Material assignment .....	3
2	Conversion of models (PRO feature) .....	4

# 1 Material assignment

Select any material from pCon.catalog and assign it to the objects in your project.

The materials can be assigned to walls, room elements and simple models. Configurable models and articles are not changed by this function.

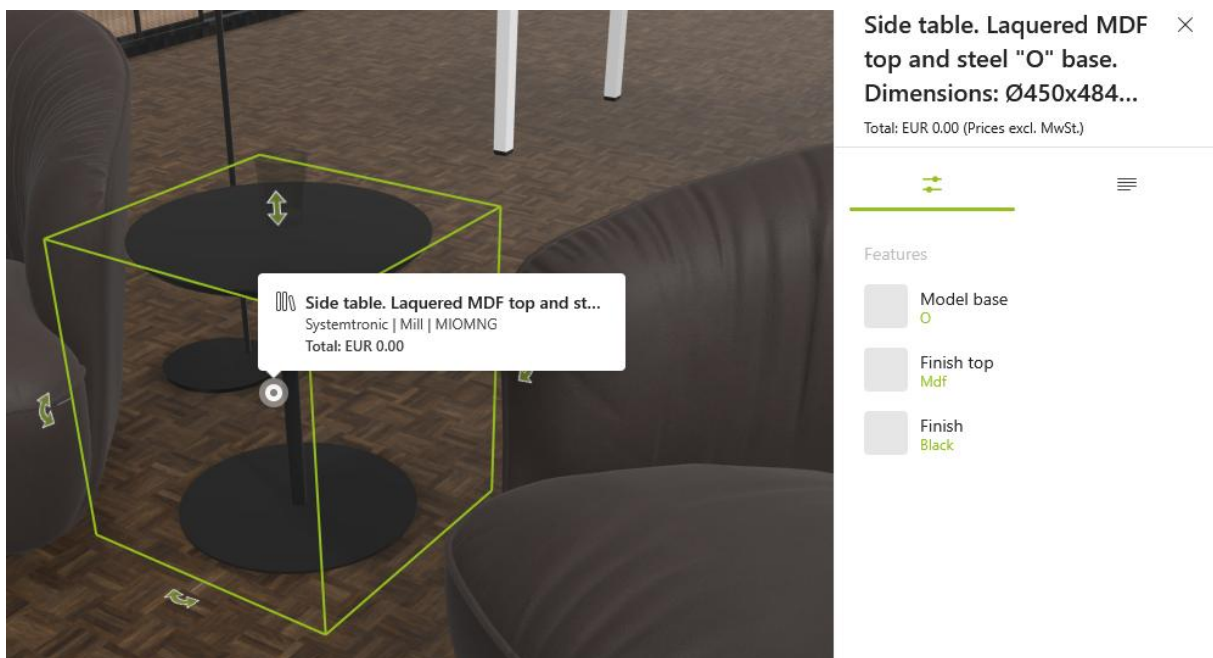

## 2 Conversion of models (PRO feature)

Several or all configurable models can be converted into articles. The prerequisite for this is that you have subscribed to the corresponding supplier data.

Afterwards, prizes will be available and the articles will appear in the article list.
