

pCon.box and pCon.facts

De differences between pCon.box epCon.facts

Inhoud

1	pCon.box	1
1.1	Systeemrequirements for pCon.box App	1
1.2	Systeemrequirements for pCon.box Website	1
2	pCon.facts	2
2.1	Systeemrequirements for pCon.facts	2

1 pCon.box

With pCon.box you can create a floorplan on location (e.g via a file from the customer or a photo from a floorplan) with the furniture you selected. Afterwards you can configure the selected furniture. It is also possible to create an article list. A desktop version of pCon.box is also available so that the customer can already experience the use of pCon.box.

General functionalities:

- Interactive and real-time product configuration
- Create a detailed article list.
- Sharing CAD files, images, product and price information.
- Create and manage your projects.
- Make a lasting impression with Augmented Reality.

1.1 Systeemrequirements for pCon.box App

Apple: iPhones, iPads (iPad Air ore higher, iPad mini 2 ore higher)and iPod Touch devices, operating system iOS 9.2 or later are supported.

Android: All devices with operating system 5.0 or higher are supported.

Note: Augmented Reality functions are available on devices that support AR. Check here if your device supports AR: <https://developers.google.com/ar/discover/supported-devices>

Windows: Tablets and p.c.'s with Windows 10 (64-bit) operating system are supported.

1.2 Systeemrequirements for pCon.box Website

To use pCon.box on a website, you need a browser that supports WebGL. Here you can test if your browser supports WebGL.

2 pCon.facts

With pCon.facts you can also create a floorplan on location with the same furniture, and these are also configurable. The difference, however, lies in the fact that with pCon.facts you have access to all the product data of the manufacturer. The information contains all leaflets, photo material, product information and. pCon.facts is available via phone/tablet. In pCon.facts it is possible to generate a quotation of the furniture. It is also possible to present the furniture in AR (Augmented Reality). Both applications can be downloaded from the Appstore or Google Play.

General functionalities:

- Detailed product information always available
- Interactive and real-time product configuration
- Creating detailed item lists
- Share photos, product and price information
- Make a lasting impression with Augmented Reality

2.1 System requirements for pCon.facts

Apple: iPhones, iPads (iPad Air or higher, iPad mini 2 or higher) and iPod Touch devices, operating system iOS 11 or higher are supported.

Android: All devices with operating system 6.0 or higher are supported.

Note: Augmented Reality functions are available on devices that support AR. Check here if your device supports AR: <https://developers.google.com/ar/discover/supported-devices>
